Because of our donations to Sun Behavior last year they were able to use an empty room to build patients a library!

Sun patients include children, adolescents and adults. They are not allowed to bring anything into the hospital with them, so the only reading material comes from that little library.

Lets stock the library with some new supplies. Donations can be new or gently used.

Only paperback books please!!

Bring Donations to class November 3 and December 8 or drop them off to the Religious Education Office.
